

## Overview

Six Sigma structure allows the project team members to know their roles and responsibilities, even before a project is started. This structure brings a solid base and stability to each new project by giving participants well-defined roles to follow and carry out.

It does this by utilizing a belt system. The belt system is one of the reasons Six Sigma project team can work together so well. It allows team members to know their general role in a project and what they can be expected to do.

**Objectives**, this course will enable and prepare participants to:

- Understand what Six Sigma is.
- Understand how to use Six Sigma methodology.
- Be valuable player within a company's larger goals and objectives.
- Help team members to improve business processes.
- Get the required knowledge, skills, experience, and statistics required to participate in Six Sigma projects.
- Use the DMAIC approach while implementing Six Sigma projects.
- Enroll in the Six Sigma yellow and green belt courses.

**Course Outlines**, this training course will be presented as follows:

1. Understanding Six Sigma
2. Statistical meaning of Six Sigma
3. DMAIC methodology
4. Basic statistics for Six Sigma
5. Basics and importance of the normal distribution
6. Process capability and sigma level.

## Course Duration

"Six Sigma White Belt (SSWB)" online course will be held as prerecorded videos for about two hours and 20 minutes (139 minutes) on different sessions in Arabic language. This course can be customized and delivered based on in-house training to meet certain needs and requirements.

## Targeted Group

- People who like to understand the importance of Six Sigma.
- People who like to understand what Six Sigma is and why organizations should implement six sigma projects.
- Management who plans to implement a Six Sigma project or process improvement initiative at their organizations.
- People who would like to be involved in a Six Sigma project.
- Anyone planning to get higher belts.

## Course Fees

The usual fees for live courses are JD50. But for prerecorded courses, JAQM offers a discount of 50%, so the fees will only be **JD25**. Fees are to include:

- Completion e-certificate issued by JAQM and internationally accredited by the International Accreditation Organization (IAO) located in USA.
